## Ofsted evaluation - 'Good'

We are delighted that Ofsted were able to gain a true feeling and perspective of our club and commented positively about the structure, set up, management and the number and variety of activities we offer.

We welcome the constructive analyst given to us by Ofsted, which centred around the two areas listed below:

1. Promoting greater independence with the Reception children.
2. Gathering information on children prior to starting at the club.

We have set about addressing these two areas by:

1. Children are now being encouraged to be more independent with tasks such as pouring their own water as opposed to the staff pouring it for them.
2. We have added a section on our booking form asking parents to add any additional information on their child. We now also send out a short information questionnaire for Reception children's parents to complete prior to starting with us. This will help us to plan and prepare for your child's arrival.

We are always striving to improve our service and the experience the children receive whilst in our care. All feedback from parents and children is welcome, as this will ultimately help us to continue to be the best we can.
