Lockdown Measures

We at SSUK are fully committed to providing our childcare services throughout these challenging times.

We have so far remained open throughout the various restrictions and lockdowns and would expect this would continue to be the case.

We are offering the service to support working parents, to provide a continued supportive structure for the children and employment for our staff. With this in mind, we will adhere to our Terms and Conditions which have been drawn up to provide clarity, transparency and security for the company; this includes our no refund policy for cancelled or missed sessions.

We will review this should we enter a national lockdown which goes beyond 2 weeks.
